

AI agent services

More time to think. More time to make informed decisions. More time to succeed.

Agents that organize incoming work, prepare drafts, and show their sources, actions, and exceptions.

<i>Workflow assessment</i>	<i>Agent implementation</i>	<i>Agent care</i>
\$750 one time Find the first workflow worth handing to an agent. • One 90-minute discovery session • Review of one business workflow and its tools • Written workflow map, success measures, and implementation scope • 30-minute findings walkthrough	From \$2,500 per scoped workflow Put one useful agent workflow into your business. • One workflow with up to two supported app integrations • Instructions, permissions, and review checkpoints • Pilot against agreed sample tasks with activity records • Documentation, one training session, and 14 days of defect fixes	From \$500 per month Keep an existing workflow useful as your business changes. • One existing workflow; monthly health and usage review • Up to three hours of troubleshooting or small improvements • Monthly activity and exception summary • Support acknowledged within two business days

Your time is the goal

Saving one to two hours a day across six working days would return 6–12 hours a week. This is an illustration, not a promised result; we establish a baseline and measure your workflow.

How we begin

Free 20-minute fit conversation → paid assessment → written implementation scope → pilot and handover.

Scope & terms

USD. Assessment paid at booking. Implementation: 50% at kickoff, 50% at agreed acceptance. Care billed monthly in advance; cancel before the next billing period. Hours do not roll over. Additional work is quoted separately.

Subscriptions, model usage, hosting, taxes where applicable, and additional integrations are separate. Timelines and acceptance criteria are agreed in writing. Care excludes around-the-clock human support and guaranteed uptime. No contract wins or grant awards are promised.
